

How to install and configure VPN for ESDG Network

1. a – Open the link on your browser to download the client bundle

<https://edogovdc-asa.edostate.gov.ng>

You can use any browser

A login form titled 'Login' with the instruction 'Please enter your username and password.' It includes a 'GROUP:' dropdown menu set to 'EDSG', a 'USERNAME:' text input field, a 'PASSWORD:' text input field, and a 'Login' button.

2. Login with the provided credentials

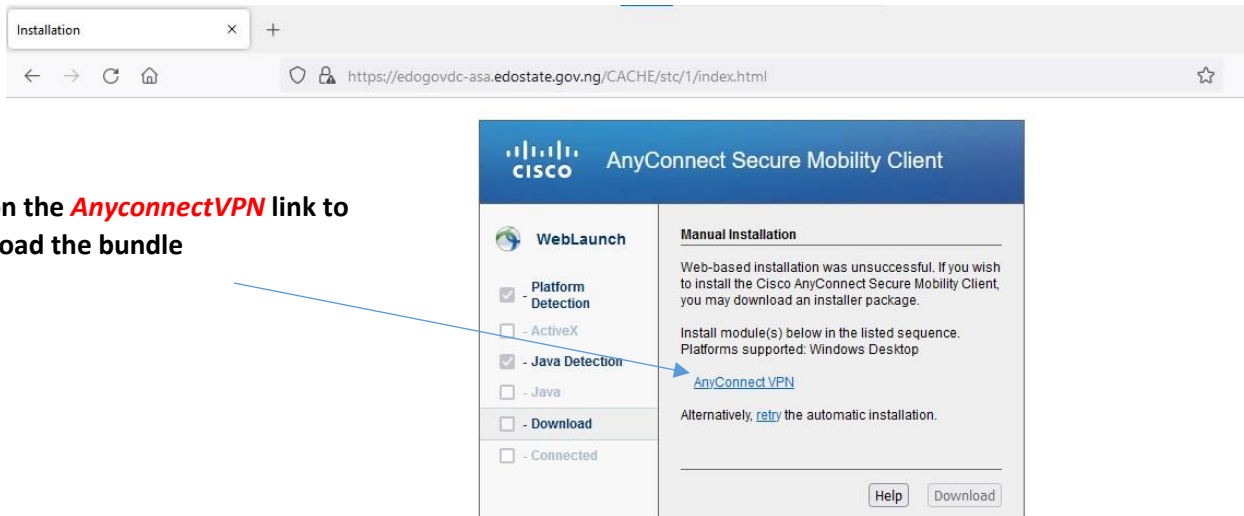

Select the Right user Profile to login.

1. EDSG Staff (Use your email address)
2. Guest (For vendors/non-EDSG staff)

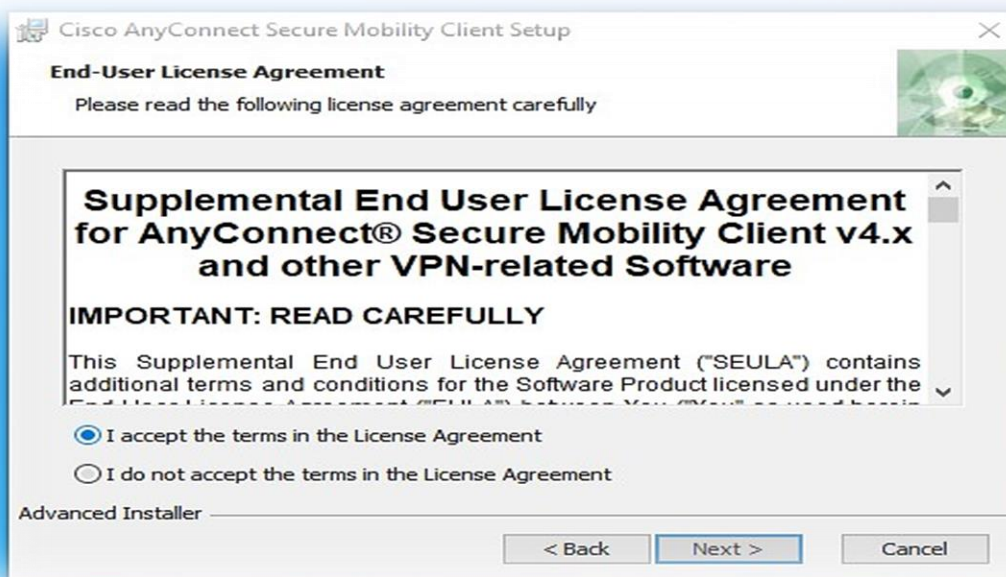

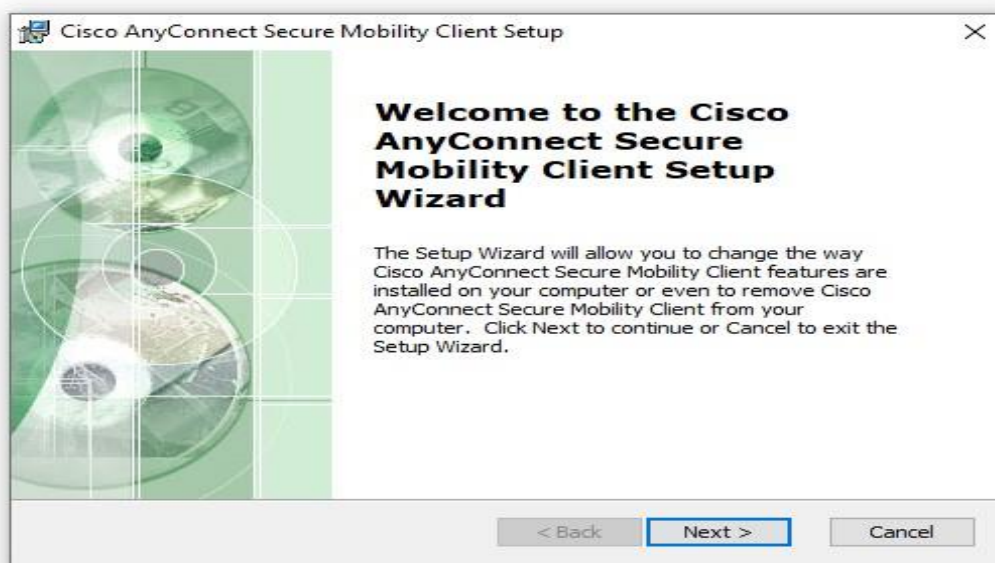

A screenshot of the login form with two red annotations. Annotation '1' points to the 'GROUP:' dropdown menu, which is set to 'EDSG'. Annotation '2' points to the 'PASSWORD:' text input field, which contains the text 'ESGN-RA'. The 'USERNAME:' field contains 'EDSG'. A 'Login' button is at the bottom.

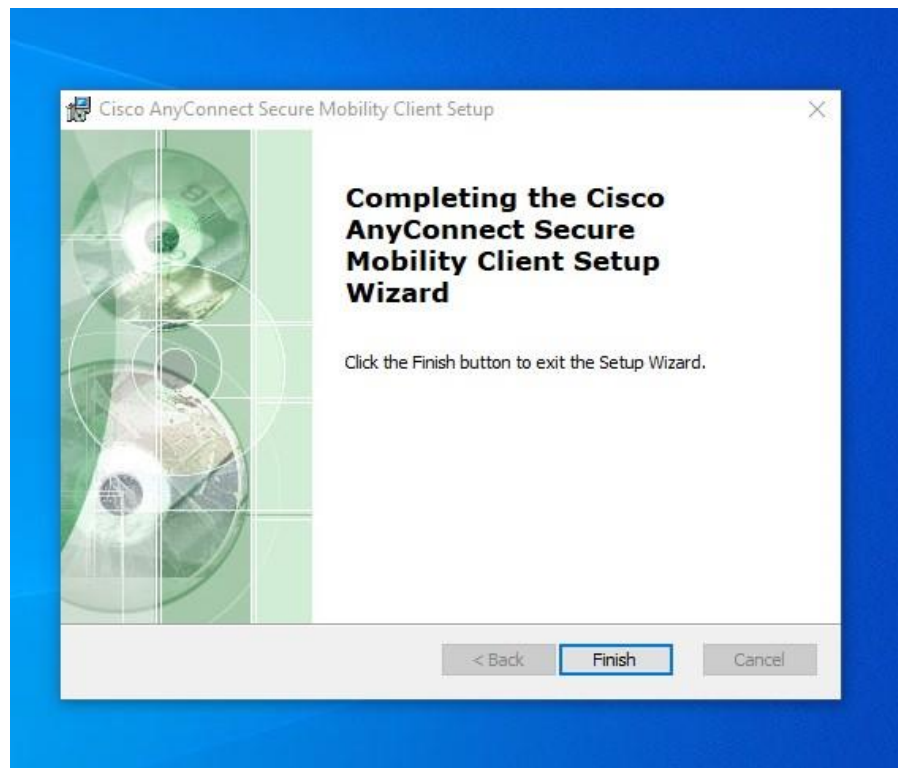

3. Download and Install the Bundle

Click on the **AnyconnectVPN** link to download the bundle

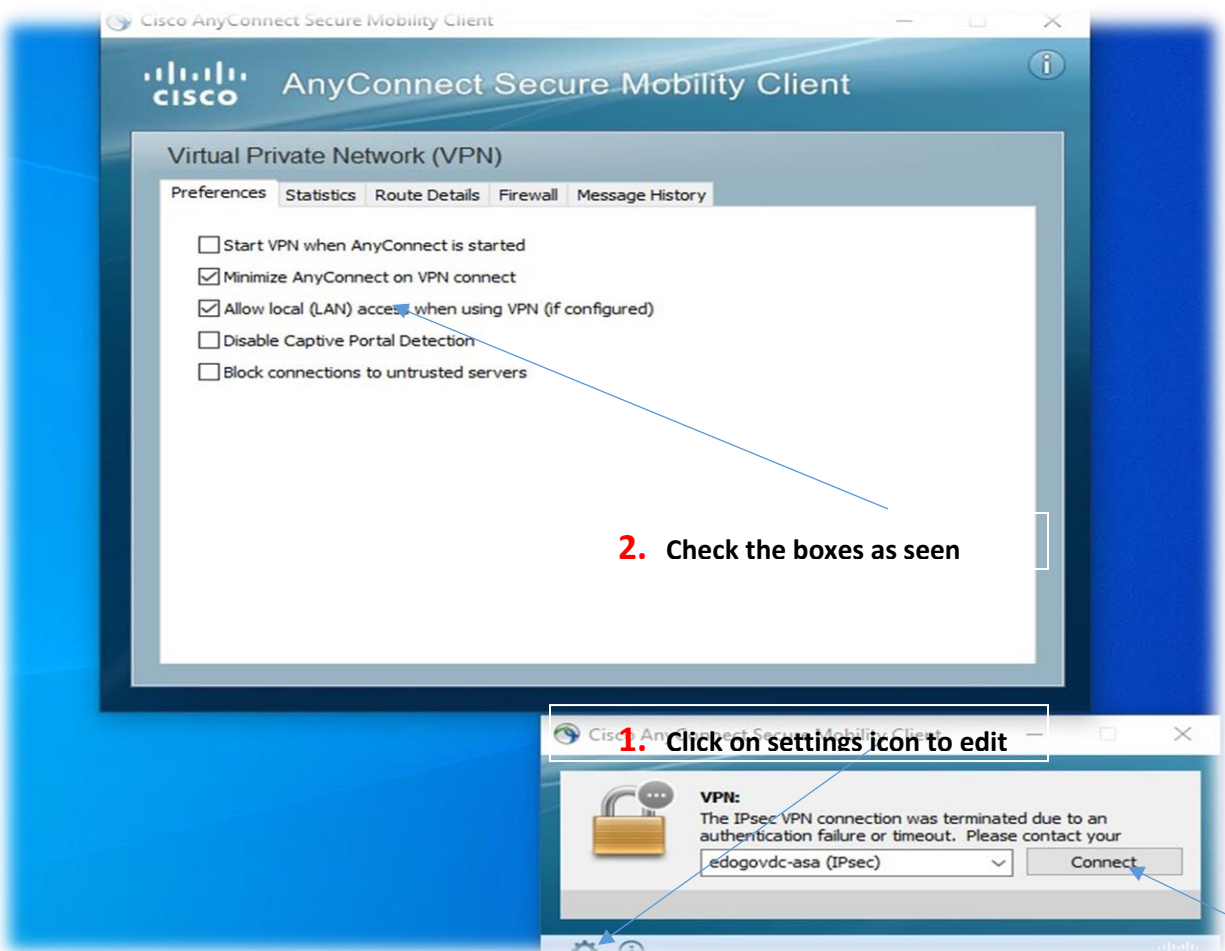

4. Click on the bundle to start installation

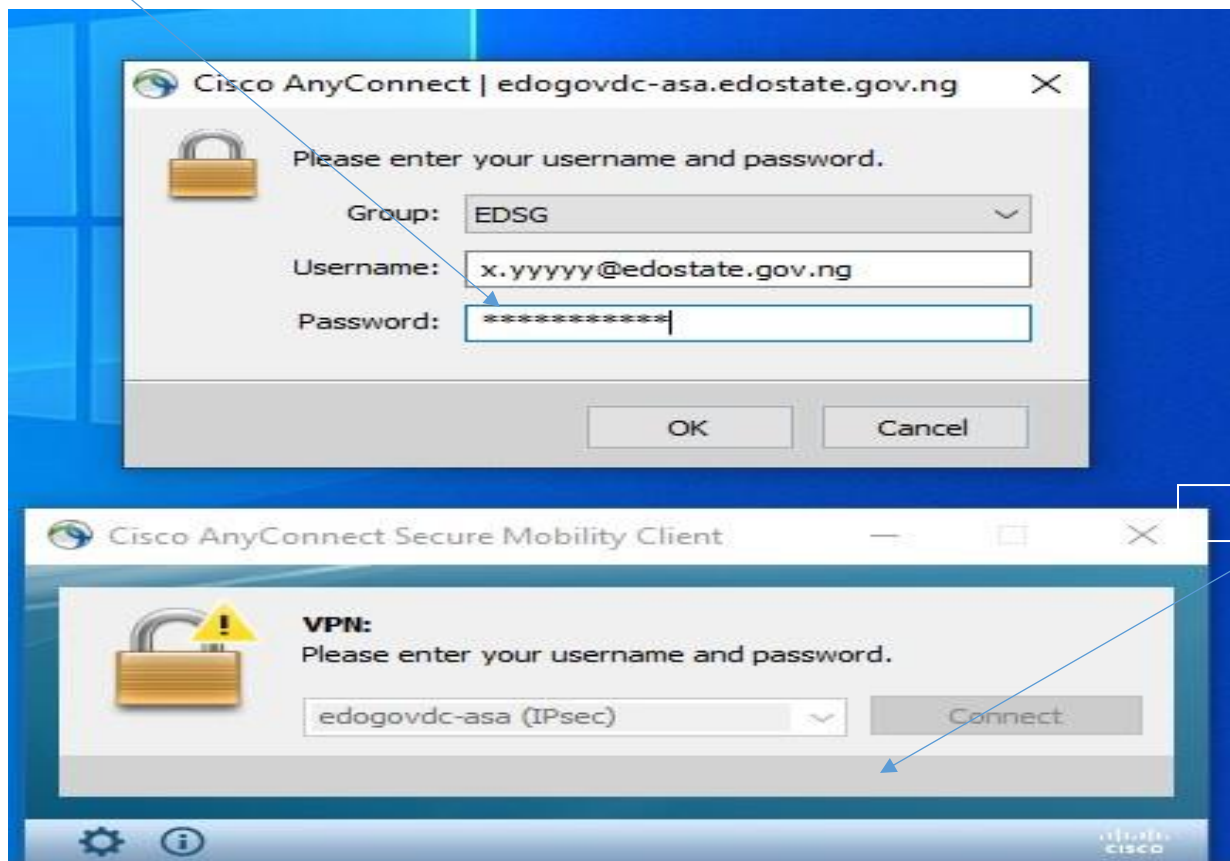

5. Launch and connect to the cisco AnyConnect VPN using your credentials

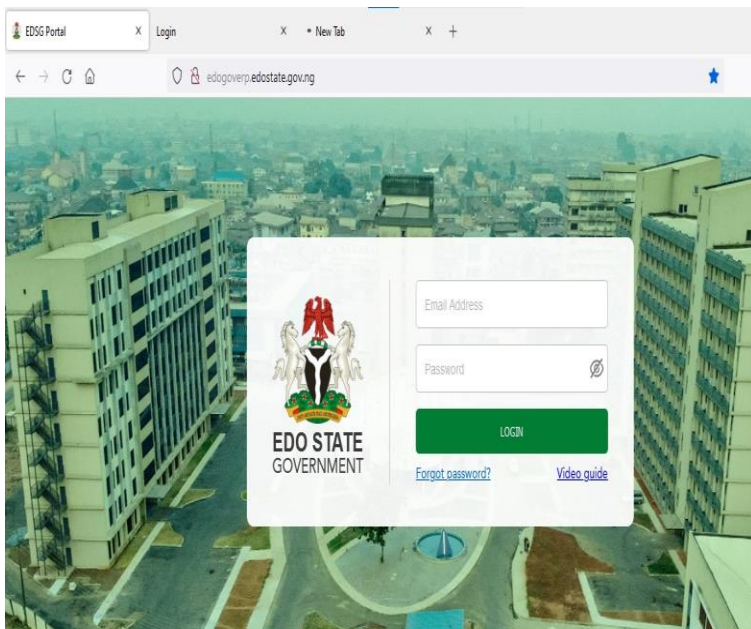

3. Close the settings interface. then connect to EDSG

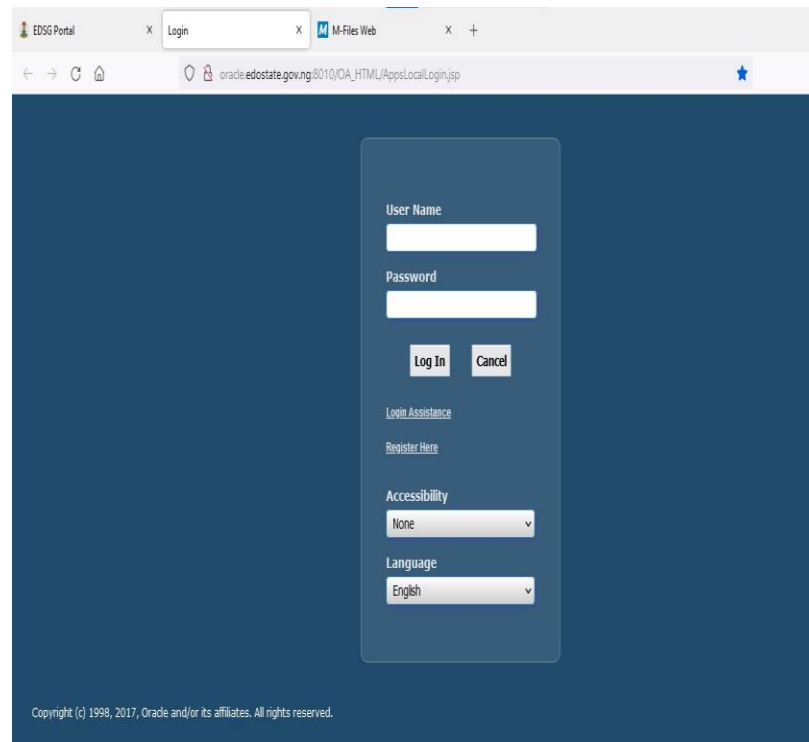

4. Provide Credentials

5. Click on Connect
